Who are we...

Najaxa Software was founded in 2018 to assist customers with tasks that others were struggling to complete. All of us at Najaxa believe in a strong, Midwest work ethic where exceeding expectations is the bare minimum. We focus on your business problems from day one and will never stop providing top notch service and delivering the best products.

...so, what does it do?

- Tracks changes between Purchase Order revisions.
- Side-by-side comparison of two different PO revisions.
- Tracks reasons for changing a PO using Reason Codes.
- Reports on all changes in Purchase Orders over time.
- Helps companies improve their Purchase Order process efficiencies.

...Purchase Order Revision History...

Purchase Order Revision history was created out of listening to our customers needs. For many years, customers have wanted to be able to track history on a PO. While this is a common capability in many other platforms, it has been missing in Dynamics GP...until now.

Why wait?
Contact us today!

Learn more about what Purchase Order Revision History can do for you at [NajaxaSoftware.com/Products](https://www.najaxasoftware.com/Products) or call us at (701) 997-1040.

PO Revision History
